

Clinical Internship

at K2 Dental Arts

Company

Ranked as the 323rd fastest-growing company in the US by Inc. Magazine, K2 Dental Arts is spearheading the dental industry shift from analog to digital across the United States, Canada and Puerto Rico. With beginnings at the UVA Darden School of Business, K2 takes a novel business approach to implement cutting-edge manufacturing methods and high-touch customer support. K2's informal and supportive work culture has a constant focus on performance and achievement.

Position – Charlottesville, VA / Part Time

The internship will provide you with insight into the nonclinical side of dentistry as well as the inner workings of quickly expanding startup. You will gain exposure to the latest up-and-coming digital workflow and also learn more broadly about the priorities and daily life of successful startups.

Work you will do

You will be responsible for understanding the laboratory side of dentistry by helping our team manage product workflow. You will monitor timeliness of product turnaround as well as be the contact between the laboratory and the dental office. You will be responsible for understanding general dental knowledge, and then later completing research on the latest dental technology. You will complete tasks that will better your knowledge on how small businesses successfully grow, which will later become implemented within our growing company.

How you will grow

You will gain a holistic view of the dental field by experiencing the nonclinical side of dentistry. You will be able to clearly communicate to dental offices about their restorations as well as understand the style and priorities of a wide range of dental practices. You will have first-hand experience on how a startup company functions, which will teach you how to be a quick learner and innovative thinker.
